Employee of the Month

**Sherry Haywood,
Housekeeper**

Sherry enjoys spending time with her 3 grandbabies. She is hard working, pleasant and a "gem". She joined Park Place three years ago.

Board Games & the Brain

Besides being fun, board games also benefit the brain. The strategy and problem-solving skills involved in playing board games engages the parts of the brain that control memory and complex thinking. Research shows that participating in non-digital games helps keep the mind sharp, even for people who waited until their later years to start playing regularly.

National Activity Professionals Day

is January 27th. Please thank Susan and her volunteers for all the great work they do.

Celebrating Dr. King

As we honor Dr. Martin Luther King Jr. this month, consider the following facts about this great civil rights leader:

- Martin was an excellent student in school; he skipped grades in both elementary school and high school. He entered Morehouse College in Atlanta when he was only 15 years old.
- In 1964, King was awarded the Nobel Peace Prize and also became the first black American to be honored as Time magazine's Man of the Year.
- The final speech delivered by King came the day before his April 4, 1968, assassination and was called "I've Been to the Mountaintop."
