**Daylight Saving Shut-Eye**

Most of the nation will spring  
forward on Sunday, March 9,  
when daylight saving time begins.  
According to research, the  
average person loses about 40  
minutes of sleep on the first night  
after the time change begins. To  
avoid being groggy Monday and  
to help your internal clock adjust,

experts suggest going to bed a  
little earlier than usual starting  
several days before the change.

## Brainteaser

Question: I am found on land and in sea, yet I neither walk nor swim. I travel by foot, but have no toes. No matter where I roam, I'm never away from home. What am I?

Answer: A snail.

## March Madness

It means office pools. Heartbreak. Buzzer beaters. Braggin' rights. "March Madness" strikes this month each year. The goal is to crown a national champion in college basketball. But did you know "March Madness" originally was coined in relation to high school hoops?

In 1939, Henry V. Porter, an administrator with the Illinois High School Association, referred to "March Madness" in an article he wrote describing the hoopla surrounding the Illinois state tournament.

When TV broadcaster Brent Musburger used the phrase "March Madness" during the 1982 NCAA tournament, it ignited an association with what has become a much-anticipated March staple.

## Geography 101: Blarney Castle

Each year, thousands of visitors flock to this medieval fortress in County Cork, Ireland, and most of them have one goal: kissing the Blarney Stone. But it's no simple task. After climbing steep spiral staircases to the top of the castle, they must lean backward and hang upside down in order to touch their lips to the historic stone. Legend says that those who carry out the custom will be awarded eloquence, or the "gift of gab," and never be at a loss for words.
